

I have just learned that my favorite radio station, K-LOVE now being broadcast on WKOL-FM (96.9) from Dayton, Ohio may be in danger of being displaced by an LPFM broadcaster. Please say this isn't so!

This is a radio station that plays only positive music that is actually good for our kids to grow up with. And it is not offensive in that any of us need to be embarrassed by vulgar terms either from the dj's or the music itself. This is a radio station loved by many in this area and to lose it to any other type of format would indeed be a shame. The music and talk on this station is in no way inflammatory in that it reminds us each and every day that we should all love and respect one another unlike many other stations which encourage conflict and disrespect in many ways--just look at what the likes of Howard Stern has done for our airwaves!

Please do not take away this very powerful and positive influence from our lives.
